Continuation of Substance of Interview including description of the general nature of what was discussed: Discussed the current claim language, in particular the attorney proposed the replacement on the term "printing" with the term "forming" located in the last limitation of claims 1 and 11. The examiner explained the reasons for disagreeing with the proposed changes as the replacement of terms lacked support in the specification, claims, and drawings and would change the scope of the claims that may change the allowability of the claims. Attorney agreed to keep the term "printing" in the claims as previously presented and subsequently the claims are rendered allowable as well as all other pending claims.
